

# Love You Abigail Always Did

one day i will kiss you  
kiss you with lips that understand  
kiss you with lips that can better explain  
that can speak in so many languages

they will know how to say i love you  
in ways you have never heard  
in ways that sound unlike anything  
any other man has mouthed before  
false promises and fairy tales  
they did not ever believe in

one day i will kiss you  
pressed words between your lips  
i will kiss you and they will  
rattle between your teeth  
run down your throat  
and fill your lungs  
they will echo against your ribs  
they will reverberate through your limbs  
they will dress every corner  
you've kept sadness hidden away  
until all that grows inside of you  
is the understanding that you are enough

one day i will tell you all about  
my paper napkin theories  
algorithms i formed that demonstrate  
how the sum of all that you are  
is greater than infinity  
but to me you have always been the one
